VISIANO 20-2

OUR MASTERPIECE

Wherever it is necessary to have the highest standards of vision, uncompromising lighting is essential. Whether in a GP practice or at the dermatologist's office, in ENT or gynecology and particularly in sensitive wards such as neonatology and intensive care: The VISIANO 20-2 is versatile and dependable. Thanks to its unique design, modern lighting technology and highest quality of light, it ensures optimal examination conditions.

- Highest lighting quality
Thanks to a concave lighting head design, diamond optics and premium LEDs, homogeneous light field and high illuminance, low shadowing, excellent color rendering (CRI > 95, R13 > 93)
- Long service life, safe and economical
low power consumption, built-in converter, maintenance-free housing, high-quality aluminium arm system and durable friction joints
- Maximum reach and ergonomics
360° rotation of the luminaire head, long arm reach
- Four dimming levels
Repeatable luminous intensities, also as ambient indirect lighting in sensitive areas
- Approved safety
Medical device according to IEC 60601, unique in this class

Protection against the spread of bacteria

In untreated materials, harmful bacteria and germs multiply within 20 minutes. The integrated antimicrobial Sanitized® hygiene function (optional) in the upper luminaire housing and in the control panel helps to keep critical areas hygienic. Tests have shown that 99% of the bacteria and microbes could be destroyed. The biocide is permanently resistant, but is not a substitute for regular cleaning.

Silver ions destabilize the cell membrane of microbes and bacteria

The range of uses of the new VISIANO 20-2 is as versatile as the selection of mounting options. Whether mounted on the ceiling, wall or floor. While you enjoy its superb ergonomic, the antimicrobial Sanitized® hygiene feature (optional) reliably inhibits the growth of microorganisms on the surface. In addition, the fully enclosed housing prevents penetration and the formation of dirt.

VISIANO 20-2 compact

- intuitive and ergonomic
- high-quality components
- homogeneous light field (Ø 21 cm, 60,000 000 Lux/ 0.5 m)
- built-in antimicrobial hygiene feature
- various fixation options
- color changing
- 4 dimming levels
